Excerpt: . . . ADDRESS. Dr. Ray Lyman Wilbur, President Le!and Stanford Jr. University. This is an opportunity to go over a few points with yon that interest me and perhaps they may interest yon. I like to think, when I deal with a group of human beings, that man is a social animal and to compare his activities to those of a hive of bees or an ants nest to see in how far he is able to carry on his common functions as well as the social insects and animals do. It is simple to look over an ants nest, but not so simple to study a bees hive, but yon find, when you begin to analyze their lives, that both have a certain definite program--food supply, housing, protection of the group, and discipline. They work it out. We call it instinct--the process by which they...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
