LINGO IN A NUTSHELL: A DESKTOP QUICK REFERENCE

O'Reilly Media. Paperback. Book Condition: New. Paperback. 631 pages. Dimensions: 8.9in. x 6.0in. x 1.1in. Macromedia Director 6 is the premiere authoring tool for delivering interactive content on both the Internet and the desktop. It is the dominant multimedia package for Windows 95NT, Windows 3. 1, and the Macintosh. A quarter million developers use Director to incorporate animation and audio into dynamic Web pages, and to create engaging interactive corporate presentations, multimedia advertising, entertainment CD-ROMs, Enhanced music CDs, and even DVDs. Lingo is Directors powerful scripting language. This companion book to Director in a Nutshell is an essential tool for both new and experienced Lingo programmers seeking a deeper knowledge of the language. Bruce Epstein is the author of both these books and brings years of hands-on experience with Director and Lingo. The book includes numerous useful Lingo examples. Exhaustively tested, this book corrects many errors found in Macromedias Lingo documentation and repeated verbatim in most third-party books. Extremely comprehensive, this book details dozens of misdocumented and undocumented Lingo keywords that are omitted from Macromedias manuals and third-party books. Lingo in a Nutshell caters to the huge pool of Director users attempting to bridge the Lingo gap, yet provides the details for the experienced Linguist that are lacking in other Lingo books. In typical nutshell style (clear, concise, deep and narrow) this book explores the syntax, structure and commands of the Lingo language. The detailed chapters describe messages, events, scripts, handlers, variables, lists, file IO, Behaviors, child objects, Xtras, and more. This book teaches you to troubleshoot and debug common Lingo errors. Lingo in a Nutshell is the book for which both Director users and power Lingo programmers have been yearning. The book extensively covers topics not found in other Lingo books: Cross-platform Lingo differences Lingo internals for experienced programmers Events, messages, and scripts Timers,...
