Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Juliet Mertz)

LAND USE PLANNING

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1988 Excerpt: . . . landscaped or can preserve existing vegetation. They often buffer conflicting activities or transportation modes or connect outdoor activity areas, such as parks. (5) Open space meets positive human needs. It is an area where a user can find fresh air, sunlight, recreation, physical exercise, and psychological release. (6) It is essential that the airfield be bordered by open space buffers to create the clear zones necessary to absorb the fields impacts on its environs. Because of their attractiveness to birds, water and wetlands should not be included in the open space buffer of an airfield. (7) Open space is necessary for, and often is co-located with, land used for outdoor recreation. The presence of open space is also important to residential uses, both family and troop housing. To all other installation land uses, open space is compatible and a prized asset. The location of open space is driven by the environmental characteristics of the land and the existing development pattern. Land located within defined flood plains and wetlands will usually remain as open space, unless developed for limited outdoor recreational uses. The clear zones and other limitations on development dictate what areas will be open space. It should be conscious installation policy to attempt to locate small functional open spaces (i. e. , small parks) in the activity centers of the installation (e. g. , administrative and industrial areas, commercial and service centers). Finally, the existing locations of the two housing types can be used as the basis for locating greenbelt...
