Trafford Publishing, Canada, 2009. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book covers chronologically the evolutionary development of privately owned banking from the time Jesus formed a scourge of cords and drove the moneychangers out of the Temple to the present trillion dollar bailout of Wall Street. In sequence it covers the cunning concept of reserve lending which the Goldsmiths of the 17th Century evolved, through the centuries that the Rothschild s dominated Europe to the foisting of the Federal Reserve System on this nation, spear-headed by Paul Warburg of the German Banking House of Warburg and Sons. There is documented historical coverage of private banking in this nation with all its devastating affect on the lives of the people. Covered are the heroic efforts of men like Congressman Charles Lindberg, father of the Lone Eagle, Congressmen Patman, Congressman McFadden and Congressman Rarick who introduced impeachment resolutions to return the issue of money and credit to the American people as specified in the Constitution. The author doesn t leave the reader in a open sea of distress but outlines proposals that would erect a national haven of economic justice, political sovereignty, full implementation of human rights, and a society devoid of indebtedness and violence. The proposal is a National Cooperative Commonwealth.
