Reviews

A must buy book if you need to adding benefit. I have read through and i also am certain that i will likely to read through once again yet again in the future. Its been designed in an exceedingly simple way and is particularly merely after i finished reading this publication by which really modified me, modify the way i think.

Not illustrated. 1906 Excerpt: . . . diet, such articles must be provided as beef tea, beef juice, chicken broth, mutton broth, gelatine, barley water, cocoa, certain forms of strained gruel, albumen water, koumyss, buttermilk, whey and sweet milk served in its natural state or in its almost numberless combinations that vary the flavor. For those on semi-solid diet such foods as oatmeal gruel, custard, ice cream, rice, tapioca, sago, and sometimes milk toast are used in addition to the foods included in fluid diet. For patients on light diet such additions are made as bread, toast, some fruits, certain kinds of fish, such as oysters, clams and the white-fleshed fishes, poultry and game. Regular diet in a hospital may include all the above articles with beef, mutton and other meats added, certain vegetables and all fruits. For patients in the transition stage with weakened digestive functions, the shorter fibred meats are usually served in small quantities, before beef, mutton and other meats more difficult of digestion. But even in the regular diets, much discretion needs to be used. Many articles that are permitted in health have no place on the hospital dietary. Boiled cabbage, or cucumber pickles, or boiled dumplings, might be relished by the heartier of the patients on regular diet, but would be entirely unsuitable for the majority, and therefore not an economical food to serve. Even though digestion is not seriously impaired, the functions because of lack of exercise are sluggish, and it is unwise to put unnecessary tax...
